25X1

On 28 April 1953, the Infanterie Kaserne in Oschatz was occupied by about 300 troops who wore red-bordered black epaulets and 20 uniformed women. Two armored personnel carriers, 1 x 76.2-mm gun, 3 x 57-mm guns, 4 x 82-mm mortars and 13 trucks were seen in the billeting area.

Comment. The report tends to indicate that only elements of the 8th Mtz Rifle Regt of the 9th Tank Div are in the installation. The other units of the division presumably are at Zeithain troop training grounds.
